VENEER COLLECTION 7023 / 7024

2

Construction - Chassis construction consists of wood, wood veneers and select wood product with book matched veneers featuring Cam-lock fasteners with additional wood cleats, screws and glue. Top surfaces are 1.125 inches thick with five-ply construction and hardwood rims. Drawers are a five sided dovetail construction with three ply bottoms and butt joints that are stapled and screwed.

Styling - With its sleek and stylized appeal, the Pimlico veneer series combines satin aluminum finished bases and framed frosted glass modesty panels and doors with either a Walnut or Bronze Cherry finish. Pimlico features edges with recessed angles and tops separated from chassis with satin finished reveals that compliment its satin nickel drawer pulls. The basic pieces can be purchased flat pack or assembled.

Function - All drawers are suspended on fully extending, metal, ball-bearing slides allowing easy access to the entire drawer. Box drawers have a 75 lb. load bearing rating; file drawers have a 150 lb. load bearing rating. File drawers accept letter or legal sized hanging files. All desks, credenzas and file cabinets have adjustable floor levelers.

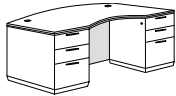

Combining satin aluminum finished bases and framed, frosted glass modesty panels and doors in either a Walnut (7023) or Bronze Cherry (7024) finish, the Pimlico Veneer series strike a high end, contemporary look. Subtle design elements include slightly recessed angled edges, tops separated from chassis with a satin aluminum finished reveal complimenting the satin nickel hardware and tops (on many items) designed with a convex shaped working side.
