DESIGN CHANGES EVERYTHING®

7008 (Reed)

7009 (Cope)

Cherry  
Finish

# S U M M I T

VENEER 7008 / 7009

2

*Construction - Construction is of wood, wood veneers and wood product. Tops are 1.5 inches thick with either a reeded or coped edge detail; finished in a Cherry finish on book matched cherry veneer with a polyurethane topcoat. The Summit series features camlock construction with reinforcement connectors for maximum stability. All drawers feature five sided dovetail construction for strength and durability.*

*Styling - Both versions of this series feature cherry book matched veneers in a Cherry finish. The Reed series features a modified reeded edge with split nickel hardware. The Cope series offers a radius coped edge with curved nickel hardware that compliments the top edge detail.*

*Function - All drawers are suspended on metal, ball-bearing, fully extending slides. Box drawers have a 60-70 lb. load bearing rating; file drawers have a 150 lb. load bearing rating. File drawers are equipped with a metal filing system to accept letter or legal size hanging files. All cases are equipped with levelers to adjust for less than even flooring. Locking drawers are found throughout the series.*

The Summit series are all about choices. Offered in two different design options, the Summit-Reed 7008 features a modified reeded edge with split nickel hardware and the Summit-Cope 7009 offers a radius coped edge detail. The basic pieces are offered either flat packed or assembled to suit your budget and needs. These series feature cherry book matched veneers in a Cherry finish.
